

In a continued effort to assist our residents to be Firewise, we have begun to develop a list of providers that may meet your property needs. We have found while out assessing a property for a survivable space grant, installing an address sign, etc. that residents have additional needs such as yard maintenance or items removed from your property. But due to physical limitations or no access to a trailer, you are not able to do so. Also, some of you are looking for handyman work.

The list has been compiled from ads run on Facebook to local Dewey-Humboldt sites. The information included are from the ad itself. Should you have any problems/concerns about the work done or find the individual/company is no longer in business, please pm us on Facebook or send an email to dh.firewise@gmail.com and we will remove them from the list. Like our contractor list for property mitigation, these negotiations are between you and the individual/company. Dewey-Humboldt Firewise does not promote or endorse these providers and is not liable for any problems incurred.
